

The Portfolio

Our contract at Liverpool FC extends to providing cleaning services at Anfield Stadium, Melwood Training Facility, The Academy, LFC Distribution Centre and retail locations including The Official LFC Store at Liverpool ONE.

New Stand

The new Main Stand at Anfield has added an additional 8,500 seats to the stadium capacity and forms only one part of the wider Anfield Regeneration Project. The project has already delivered swathes of new and renovated homes, environmental improvements, community facilities and hundreds of jobs and training opportunities. The club's move to make the stadium an accessible and thriving commercial centre for the city has been at the forefront of the club's plans for the whole area. CleanEvent's LFC team are working closely with the club to deliver a cleaning service that meets this new vision for Anfield and the shift in use of the stadium environs to become a space that is open to the public the whole year round. Away from the stadium, the logistical task of ensuring that all LFC's diverse locations are served to the highest standards across the city draws upon CleanEvent's extensive knowledge and skill in delivering cleaning services in the retail, commercial office, industrial and education sectors.

Hillsborough Commemoration

The final annual Hillsborough Commemoration event took place at Anfield on 27th April 2016, the day following the club's heroic last minute Europa League semi-final against Dortmund. The CleanEvent team drew specific praise from the club for their efforts to fully clean the stadium overnight in record time in readiness for the 1pm event.
